

Engineered for Precision

The RD Scorer HP sets a new standard for precision and efficiency in rotary scoring applications. Featuring an ultra-fine threaded adjustment screw for enhanced score-depth accuracy and a solid anvil design that improves runout, the RD Scorer HP ensures unparalleled performance.

This innovative design not only reduces lead times and manufacturing costs but also opens the door to future enhancements, including higher-quality blade and bearing assemblies for even more precise scoring.

With compatibility for thin-film applications and drop-in replacement capability for existing RD Scorers, this versatile solution is engineered to meet the evolving demands of your operation.

Key Features

- Ultra-Fine Threaded Adjustment Screw
- Solid Anvil Design
- Drop-In Replacement (Single Hole Mounting)
